KEMPEN
GROUP

Driven by results and personal relationships

WHO WE ARE

Ignus Kempen and Lizzie Kempen have been chartered accountants since 2003 and 2004, respectively.

Since our early days in 1999 when we started our articles at Griesel Nel in Centurion, South Africa, we have built up our relationships with our clients and fellow professionals. We established firms such as Griesel Nel Southern Cape in 2004 and built it into the multinational firm LUMENROCK, acquiring more than 100 employees along the way, before eventually building our own brand under KEMPEN Group. We believe the people we have come across and the relationships we have forged over time have put us in good stead for the future.

Therefore, with years of experience in the industry, we understand how businesses work and how to make them grow. By combining financial support with strong commercial acumen, we guarantee to establish a strategy to grow your business, whilst maintaining control of your business and cash flow position.

As a part-time Finance Director, we support all aspects of your business through system improvements, mentoring your management, budgeting, and forecasting, and producing fantastic management reports. With an experienced team, world-beating system, and processes, we are highly effective in producing valuable informative reporting. We offer quality advice at the fraction of the cost of employing a full-time Finance and Commercial Director. We are flexible and can tailor our support to your business's unique needs.
